Bilingual Lexicon of Legislative Terms

New Edition

This new edition of the *Bilingual Lexicon of Legislative Terms*, prepared by the Office of Legislative Counsel, is the result of a complete review of the 1992 edition. Every entry in that edition was checked against our statutes database. Hundreds of obsolete entries were deleted and thousands of new entries were added. These changes were based on a scanning of the Revised Statutes of Ontario, 1990 and of annual statutes to the end of 1997. Bilingual regulations were not scanned for the purpose of this edition, with the exception of the Rules of Civil Procedures and a few similar regulations.

We hope that this updated edition of the *Lexicon* will reflect even more accurately the terminology used in Ontario's statutes, and that users will find it as complete, practical and reliable a reference work as the previous editions.

Copies of the Lexicon may be purchased for \$30.47 (\$26.50 plus \$1.85 (7%) GST, plus \$2.12 (8%) PST) in person or by telephone, fax, or mail order through **Publications Ontario** at the address and at the following numbers:

Lexique bilingue de termes législatifs

Nouvelle édition

Cette nouvelle édition du *Lexique bilingue de termes législatifs*, préparée par le Bureau des conseillers législatifs, constitue une refonte complète de l'édition de 1992. Des centaines de termes désuets figurant dans la précédente édition ont été retranchés; en revanche, des milliers de nouveaux termes viennent enrichir l'ouvrage. Le choix des entrées et des contextes se fonde essentiellement sur le dépouillement des Lois refondues de l'Ontario de 1990 et sur celui des lois annuelles jusqu'à la fin de 1997. Les règlements bilingues n'ont pas été dépouillés, à l'exception des Règles de procédure civile et de quelques règlements analogues.

Nous souhaitons que cette édition mise à jour reflète encore plus fidèlement la terminologie utilisée dans les lois de l'Ontario, et nous espérons que ses usagers y trouveront un instrument de travail aussi complet, pratique et maniable que les éditions précédentes.

On peut se procurer des exemplaires du Lexique au prix unitaire de 30,47 \$ (26,50 \$ plus 1,85 \$ (7 %) TPS, plus 2,12 \$ (8 %) TVP) en personne ou par téléphone, télécopie ou commande postale auprès de **Publications Ontario** à l'adresse et aux numéros suivants :

(6) Malgré les paragraphes (4) et (5), la somme calculée par ailleurs en application du présent article pour un programme d'enseignement admissible est réduite de la somme que le ministre estime indiquée compte tenu des frais raisonnables que le conseil engage à l'égard du programme si celui-ci, selon le cas :

(2) Si la dépense nette que le conseil affecte à des mesures d'éducation de l'enfance en difficulté pour ses élèves pendant l'exercice 2001-2002 est inférieure à la somme exigée en application du paragraphe (1), le conseil verse la différence dans son fonds de réserve pour l'éducation de l'enfance en difficulté.

(3) Pour l'application du présent article, la dépense nette qu'un conseil affecte à des mesures d'éducation de l'enfance en difficulté pendant l'exercice 2001-2002 est calculée de la manière suivante :

1. Additionner la part de la somme visée au paragraphe 233 (1) de la Loi qui se trouve dans le fonds de réserve du conseil le 31 août 2002, immédiatement avant le virement prévu au paragraphe 233 (2) de la Loi, qui est imputable à l'éducation de l'enfance en difficulté à la dépense qu'il affecte à des mesures d'éducation de l'enfance en difficulté pour ses élèves pendant l'exercice 2001-2002.

41. (1) Sous réserve du paragraphe (2), le conseil scolaire de district fait en sorte qu'une somme égale au total des sommes suivantes, calculées pour le conseil en application de l'article 36, soit affectée à l'acquisition d'immobilisations au cours de l'exercice 2001-2002 :

(3) Pour l'application du présent article, la dépense nette qu'un conseil engage pour faire l'acquisition d'immobilisations au cours de l'exercice 2001-2002 est calculée en déduisant les sommes suivantes de la dépense qu'il engage pour faire l'acquisition d'immobilisations au cours de cet exercice.

4. Les recettes éventuelles provenant d'autres sources que le conseil reçoit au cours de l'exercice 2001-2002 et qu'il affecte au cours de cet exercice à l'acquisition d'immobilisations.

- (a) that is generally accepted as a reasonable method for determining the fair market value of the particular type of property; and
- (b) that is acceptable to the Minister of Finance.

- (3) If a transferor transfers property to a municipal electricity utility under a transfer by-law and if the utility describes the transferred property as falling within Class 24 or 27 of Schedule II to the Federal Regulations immediately before the transfer, the transferred property shall be deemed to be property in the same class after the transfer if the following conditions are satisfied:

1. The transferor acquired the property before 1999.
2. The Minister of Finance is satisfied that the primary use of the property by the utility is the prevention, reduction or elimination of pollution.

Special rules

8. (1) The following rule applies in determining a municipal electricity utility's income for its first taxation year ending after October 1, 2001:

1. The amount of any deduction claimed under section 20 of the Federal Act is determined as if the utility has always been a corporation subject to tax under that Act and had deducted in its prior taxation year the maximum amounts it would have been entitled to deduct under that section for that prior taxation year.

- (2) The following rules apply in determining a municipal electricity utility's income, taxable income and amount payable under section 93 of the Act for a taxation year ending after October 1, 2001,

1. The utility is not entitled to deduct an amount in respect of any expense or loss incurred before October 1, 2001.
2. The amount of any deduction from the amount that would otherwise be payable under section 93 of the Act is determined as if the utility were a corporation incorporated on October 1, 2001.

- (3) Subsections (1) and (2) do not apply to a municipal electricity utility that is subject to tax under the Federal Act or the *Corporations Tax Act* immediately before its first taxation year under section 93 of the Act ending after October 1, 2001.

No inter-provincial allocation

9. For the purposes of sections 39, 57.6 and 67 of the *Corporations Tax Act*, a municipal electricity utility that would otherwise have a permanent establishment in a jurisdiction other than Ontario shall be deemed not to have a permanent establishment in that jurisdiction if the utility is not subject to taxation under the laws of that jurisdiction on its income and on its capital.

Income earned through other entities

10. (1) Subsection (2) applies to a municipal electricity utility for a taxation year if the following conditions are satisfied:

1. The utility owns at the end of the taxation year,
 - i. at least one share of a corporation that generates, transmits, distributes or retails electricity at any time in the utility's taxation year,
 - ii. at least one share of a corporation that is related at the end of the utility's taxation year to a corporation described in subparagraph i, or
 - iii. shares having a fair market value equal to at least 10 per cent of the fair market value of all issued and outstanding shares of a corporation that is not a corporation described in subparagraph i or ii.
2. The corporation meets all of the following conditions for its taxation year that ends during or on the same day as the utility's taxation year:
 - i. The corporation is not subject to tax under the Federal Act by reason of subsection 149 (1) of that Act or is not subject to income tax under the laws of a jurisdiction in which the corporation would have a permanent establishment for the purposes of section 4 of the *Corporations Tax Act*.
 - ii. The corporation is not required to make a payment under section 89, 90 or 93 of the Act.

- (2) For the purposes of determining the utility's income and taxable paid-up capital for the taxation year, the corporation is treated as if it were a partnership in which the utility's ownership interest in the partnership is equal to the fraction of the partnership's income and capital calculated using the formula,

$$A/B$$

in which,

"A" is the fair market value of the issued and outstanding shares of the corporation that are owned by the utility, determined as of the last day of the corporation's taxation year ending in or on the same day as the utility's taxation year, and

"B" is the fair market value of all of the issued and outstanding shares of the corporation, determined as of that day.

Reduction on disposition of subsidiary

11. (1) This section applies if a municipal electricity utility disposes of shares of a subsidiary and, as a result of the disposition, subsection 149 (10) of the Federal Act applies to the subsidiary.

- (2) The amount, if any, otherwise payable by the utility under section 93 of the Act as a consequence of the disposition of the shares is reduced by the amount, if any, payable by the subsidiary under that section, determined as if the subsidiary's only income in the taxation year in which the disposition occurs is its income resulting from the deemed disposition of its assets under subsection 149 (10) of the Federal Act.

Change in tax status

12. The following rules apply if a municipal electricity utility ceases to be exempt under subsection 149 (1) of the Federal Act or under subsection 57 (1), section 57.11 or subsection 71 (1) of the *Corporations Tax Act* in circumstances in which a deemed disposition occurs under paragraph 149 (10) (b) of the Federal Act:

1. The utility shall be deemed to continue to be exempt until immediately after the deemed disposition.
2. The utility shall pay an amount determined under section 93 of the Act calculated by reference to any gain arising on the deemed disposition under paragraph 149 (10) (b) of the Federal Act.

Return

13. (1) If a municipal electricity utility is required to make a payment under subsection 93 (1) of the Act for a taxation year, it shall deliver to the Minister of Finance a return for the taxation year, in the form and containing the information required by section 150 of the Federal Act.

(2) If a municipal electricity utility is required to make a payment under subsection 93 (2) of the Act for a taxation year, it shall deliver to the Minister of Finance a return for the taxation year, in the form and containing the information required by section 75 of the *Corporations Tax Act*.

(3) A return required to be delivered under subsection (1) or (2) must be delivered within six months after the end of the taxation year to which the return relates.

Payments

14. (1) Section 78 of the *Corporations Tax Act* applies to municipal electricity utilities in respect of amounts payable under section 93 of the Act.

(2) Despite subsection (1), the following rules apply to amounts payable by a municipal electricity utility under section 93 of the Act for its first taxation year:

1. The first instalment for the taxation year is payable on or before October 31, 2001 and subsequent instalments for the year are payable on or before the end of each subsequent month in the taxation year.
2. The balance of the amount payable for the taxation year is payable on or before the end of the third month after the end of the taxation year.
3. Subclauses 78 (2) (a) (ii) and (iii), clause 78 (2) (b) and subsections 78 (3), (8), (9) and (10) of the *Corporations Tax Act* do not apply.
4. The utility is not required to pay monthly instalments on account of the amount payable under section 93 of the Act and may pay the total amount on or before the end of the third month after the end of its taxation year if the amount payable by the utility for the taxation year under section 93 of the Act is less than \$2000,
 - i. after the deduction of any credits to which the utility would be entitled if it were a corporation subject to tax under the Federal Act, and
 - ii. after the deduction of any credits and tax that would be deemed under Division E of Part II of the *Corporations Tax Act* to be paid by the utility if it were a corporation subject to tax under the *Corporations Tax Act*.
5. Subsection 79 (1) of the *Corporations Tax Act* applies unless it is reasonable to believe from the amount of the instalments paid by the utility and the timing of the payments that the utility exercised due diligence in estimating the amount of its instalments.

(3) Despite subsection (1), subclause 78 (2) (a) (iii) of the *Corporations Tax Act* does not apply to a municipal electricity utility in respect of amounts payable under section 93 of the Act for the utility's second taxation year.

8. Malgré le paragraphe 5 (1), l'alinéa 5 (2) a) et le paragraphe 6 (4), la société locale de logement, le gestionnaire de services lié qui agit en application du paragraphe 6 (3) et le fournisseur de logements visé au paragraphe 6 (4) offrent un logement modifié ou un autre type de logement adapté au ménage qui a besoin d'un tel logement et qui figure au premier rang sur sa liste d'attente pour les logements adaptés.

9. Si un ménage qui occupe un logement modifié ou un autre type de logement adapté est admissible à une aide sous forme de loyer indexé sur le revenu, la somme qu'il paie pour occuper le logement est réduite de l'aide à laquelle il est admissible.

TAX MATTERS — PART XXII.3 OF THE ACT
— 2001 TAXATION YEAR

PART I

ADJUSTMENT TO TAXES IN RESPECT OF CHANGES
IN TAXES FOR MUNICIPAL PURPOSES
(SUBSECTION 447.65 (1), PARAGRAPH 3 OF THE ACT)

Application of Part

1. This Part provides for the adjustments to be made under paragraph 3 of subsection 447.65 (1) of the Act in respect of changes in taxes for municipal purposes.

Adjustment

2. (1) The amount determined under paragraph 2 of subsection 447.65 (1) of the Act shall be adjusted,

- (a) by increasing it by the amount determined in accordance with subsection (2) if that amount is positive; or
- (b) by decreasing it by the amount determined in accordance with subsection (2) if that amount is negative.

(2) The amount referred to in clauses (1) (a) and (b) is equal to the amount determined under paragraph 2 of subsection 447.65 (1) of the Act multiplied by the 2001 adjustment fraction determined under subsection (3).

(3) The 2001 adjustment fraction referred to in subsection (2) shall be determined in accordance with the following:

$$\text{2001 adjustment fraction} = \frac{(\text{Actual 2001 tax rate} - \text{2001 tax rate to raise the 2000 levies})}{\text{2001 tax rate to raise the 2000 levies}}$$

where,

"Actual 2001 tax rate" means the number determined under section 3,

"2001 tax rate to raise the 2000 levies" means the number determined under section 4.

Actual 2001 tax rate

3. For the purposes of subsection 2 (3), the Actual 2001 tax rate means a sum determined, in accordance with the following, for the property class and local municipality the property is in:

1. Identify each 2001 tax rate for municipal or school purposes on property in the property class in the local municipality.
2. A tax rate for the purposes of a special local municipality levy or a special upper-tier levy shall be identified under paragraph 1 only if it applies to at least 50 per cent of the total assessment of property in the property class in the local municipality taxable for municipal purposes.
3. For the purposes of paragraph 1, the 2001 tax rate for school purposes means the tax rate prescribed under section 257.12 of the *Education Act*.
4. The Actual 2001 tax rate is the sum of the tax rates identified under paragraph 1.

2001 tax rate to raise the 2000 levies

4. (1) For the purposes of subsection 2 (3), the 2001 tax rate to raise the 2000 levies means a sum determined, in accordance with the following, for the property class and local municipality the property is in:

1. For each general or special municipal levy for 2000 that applied to property in the local municipality, determine the 2000 levy amount in accordance with subsection (2).
2. For each levy, determine the weighted assessment, in accordance with subsection (3), for each property class with respect to which the levy applies.
3. For each levy, determine the 2000 residential rate by dividing the 2000 levy amount, determined under paragraph 1, by the sum of the weighted assessments determined for each property class under paragraph 2.
4. For each levy, determine a property class rate for each property class by multiplying the 2000 residential rate determined under paragraph 3 times the tax ratio for the property class for 2001.

5. For each property class, the 2001 tax rate to raise the 2000 levies is the sum of the property class rates determined under paragraph 4 for the property class and the 2001 tax rate for school purposes.

6. A property class rate for a levy shall not be included in the calculation under paragraph 5 if the total assessment, as set out in the assessment roll for 2001, as returned, for property in the property class in the local municipality with respect to which the levy applies is less than 50 per cent of the total assessment, as set out in the assessment roll for 2001, as returned, for property in the property class in the local municipality taxable for municipal purposes.

7. For the purposes of paragraph 6, the assessment for a property includes any adjustments under section 33, 34, 39.1 or 40 of the *Assessment Act* that have been made on the collector's roll prior to the issuance of the final 2001 tax notice under section 392 or 393 of the Act.

(2) For the purposes of paragraph 1 of subsection (1), the 2000 levy amount for a levy shall be determined in accordance with the following:

1. Apply the 2000 tax rate for the levy for each property class to the total assessment for property in the property class to which the levy applied.
2. If the property class is not subject to Part XXII.3 of the Act, the assessment, for the purposes of paragraph 1, is the assessment set out in the assessment roll for 2000, as returned, with the changes in assessment that would produce the changes in taxes referred to in paragraphs 2 and 3 of subsection 372.2 (6) of the Act.
3. If the property class is subject to Part XXII.3 of the Act, the assessment, for the purposes of paragraph 1, is the assessment set out in the assessment roll for 2000, as returned, with the changes in assessment that would produce the changes in taxes referred to in paragraphs 2, 3, 5 and 6 of subsection 447.65 (2) of the Act.
4. The 2000 levy amount for a levy is the sum of the amounts determined under paragraph 1 for each property class.

(3) For the purposes of paragraph 2 of subsection (1), the weighted assessment for each property class with respect to which the levy applies shall be determined in accordance with the following:

1. Multiply the assessment for the properties in the property class to which the levy applied, as set out in the assessment roll for 2001, as returned, by the tax ratio for the property class for 2001.
2. For the purposes of paragraph 1, the assessment for a property includes any adjustments under section 33, 34, 39.1 or 40 of the *Assessment Act* that have been made on the collector's roll prior to the issuance of the final 2001 tax notice under section 392 or 393 of the Act.
3. For the purposes of paragraph 1, the assessment for a property with respect to which section 368.1 of the Act applies shall be reduced by an amount equal to the assessment with respect to which the percentage reduction in subsection 368.1 (1) of the Act applies multiplied by the percentage reduction.

Graduated tax rates

5. For the purposes of this Part, the tax rate for a property with respect to which a by-law under section 368.2 of the Act applies is the tax rate that would have applied if section 368.2 of the Act did not apply.

Previously unorganized territory

6. The following apply with respect to a property that was in territory without municipal organization and became part of a municipality in 2000 or 2001:

1. No adjustment shall be made under paragraph 3 of subsection 447.65 (1) of the Act in respect of changes in taxes for municipal purposes.
2. The property shall be deemed to not be part of the municipality for the purposes of this Part.

PART II**DETERMINATION OF TAX RATES IF SUBSECTION 366 (4.1) OR 368 (4.1) OF THE ACT APPLIES****General tax rate if subs. 366 (4.1) or 368 (4.1) of the Act applies**

7. (1) This section provides for the manner in which the tax rates on property in a property class are to be determined under subsections 366 (4.1) and 368 (4.1) of the Act if the conditions set out in those subsections are satisfied.

(2) If the tax rate for the general levy for the property class would otherwise exceed the property class rate determined under paragraph 4 of subsection 4 (1) for the general levy, the tax rate for the general levy for the property class shall be the property class rate.

Special levy for tax increase

8. (1) If subsection 7 (2) applies with respect to a property class, the municipality shall, by special levy, raise an amount equal to the difference in what the revenue would be, in relation to the property class, if subsection 7 (2) did not apply.

(2) The special levy shall be raised under subsection 366 (3) or 368 (3) of the Act, as applicable, on all property other than property in a property class or classes in respect of which subsection 7 (2) applies.

(3) If the general levy of a municipality for 2000 was less than the general levy for 1999, the following apply:

1. The municipality may raise, under subsection (1), the amount described in paragraph 2 instead of the amount described in subsection (1).
2. The amount referred to in paragraph 1 is an amount equal to what the reduction in revenue under subsection 7 (2) would be if paragraphs 1 to 4 of subsection 4 (1) were applied in relation to the 1999 general levy instead of the 2000 general levy.
3. For the purposes of applying paragraphs 1 to 4 of subsection 4 (1) under paragraph 2, a reference to "2000" in section 4 shall be deemed to be a reference to "1999".

PART III**PRESCRIBED ADJUSTMENTS UNDER SECTION 447.67 OF THE ACT****Adjustment for school purposes, various provisions**

9. There shall be no adjustment of taxes in respect of changes in taxes for school purposes for the purposes of subsection 447.67 (2), paragraph 2 of subsection 447.67 (4) and paragraphs 2 and 6 of subsection 447.67 (8) of the Act.

Adjustment for municipal purposes, various provisions

10. (1) This section provides for the adjustment of taxes in respect of changes in taxes for municipal purposes for the purposes of subsection 447.67 (2), paragraph 2 of subsection 447.67 (4) and paragraph 2 of subsection 447.67 (8) of the Act.

(2) The taxes shall be adjusted by multiplying the 2001 taxes for municipal and school purposes by a fraction determined in accordance with subsection (3).

(3) The fraction referred to in subsection (2) shall be determined in accordance with the following:

$$\text{Fraction} = \frac{1}{2001 \text{ adjustment fraction} + 1}$$

where,

"2001 adjustment fraction" means 2001 adjustment fraction under subsection 2 (3).

Adjustment for municipal purposes, para. 6 of subs. 447.67 (8) of the Act

(2) The amount determined under paragraph 5 of subsection 447.67 (8) of the Act shall be adjusted,

- (a) by increasing it by the amount determined in accordance with subsection (3) if that amount is positive; or
- (b) by decreasing it by the amount determined in accordance with subsection (3) if that amount is negative.

(3) The amount referred to in clauses (2) (a) and (b) is equal to the amount determined under paragraph 5 of subsection 447.67 (8) of the Act multiplied by the 2001 adjustment fraction determined under subsection 2 (3).

Taxes not to be lower than uncapped 2001 taxes

12. (1) If the taxes for municipal and school purposes for 2001 as determined under subsection 447.67 (8) of the Act are less than the uncapped 2001 taxes, the taxes for municipal and school purposes for 2001 shall, despite subsection 447.67 (8) of the Act, be equal to the uncapped 2001 taxes.

(2) In this section,

"uncapped 2001 taxes" means the taxes for municipal and school purposes that would have been imposed for 2001 but for the application of Part XXII.3 of the Act.

Previously unorganized territory

13. The following apply with respect to a property that was in territory without municipal organization and became part of a municipality in 2000 or 2001:

1. No adjustment shall be made under subsection 447.67 (2), paragraph 2 of subsection 447.67 (4) or paragraph 2 or 6 of subsection 447.67 (8) of the Act.
2. Section 12 does not apply.
3. The property shall be deemed to not be part of the municipality for the purposes of this Part.

INTRODUCTION

The Financial Services Commission of Ontario (FSCO) is a regulatory and adjudicative agency established under the *Financial Services Commission of Ontario Act, 1997* (the *FSCO Act*). It reports to the Minister of Finance.

Under section 11 of the *FSCO Act*, FSCO is required to deliver to the Minister of Finance and publish by June 30 of each year a statement setting out its proposed priorities for the year ahead. This is FSCO's fourth Statement of Priorities. It outlines proposed Strategic Priorities, sketches the regulatory environment the priorities are designed to address, notes recent progress and describes the initiatives planned for the coming year.

FSCO regulates insurance, pension plans, loan and trust companies, credit unions, caisses populaires, mortgage brokers and co-operative corporations in Ontario. Its mandate is to protect the public interest

and enhance public confidence in the regulated sectors. To do this, FSCO provides regulatory services that protect consumers and pension plan beneficiaries, and support a healthy and competitive financial services industry.

FSCO comprises:

- » a five-member Board with specific responsibilities under the *FSCO Act*, such as making recommendations to the Minister of Finance on matters affecting the regulated sectors;
- » the Chief Executive Officer and Superintendent of Financial Services – responsible for the general supervision of the regulated sectors, the administration and enforcement of the *FSCO Act* and other statutes governing the regulated sectors, and FSCO's financial and administrative affairs – and FSCO staff, who support the Chief Executive Officer and Superintendent of Financial Services in carrying out these roles; and
- » the Financial Services Tribunal (FST), an adjudicative body that conducts hearings arising from regulatory and proposed regulatory decisions of the Superintendent.

In pursuing its mandate, FSCO continually assesses issues affecting marketplace participants as well as its own response to these issues. To gather input and feedback, FSCO works with many stakeholders – such as financial services providers and consumers, pension plan administrators and beneficiaries, professional advisors and consultants and other federal and provincial regulators. A variety of committees and other channels have been established to facilitate ongoing dialogue.

FSCO's offices are located in north Toronto. The agency has approximately 385 full-time employees and had a budget of \$36 million for the 2000-2001 fiscal year. FSCO is committed to delivering value for the resources entrusted to it, in terms of both effective consumer and pension plan beneficiary protection and a favourable business climate.

Merger with OSC Proposed

In May 2000, the Minister of Finance announced the next stage in the integration of financial services regulation in Ontario – a proposal to merge FSCO with the Ontario Securities Commission (OSC) into a single agency to regulate capital markets and financial services sectors. The legislation required to create the new organization and specify its regulatory responsibilities and powers is expected to be introduced during 2001. The consolidated agency is intended to provide strong protection for consumers, investors and pension plan beneficiaries, implement timely regulatory responses to changing market structures and foster a competitive, healthy financial services industry in Ontario.

In September 2000, the government released a discussion paper on the merger. The paper proposed the creation of the Ontario Financial Services Commission as a self-funded Crown corporation with rule-making authority to be responsible for regulating financial services in the province. A Pension Tribunal to hear pension matters was also proposed. In April 2001, the Minister of Finance released draft legislation for another round of consultation on the merger.

FSCO is committed to keeping all stakeholders informed of the progress of the merger, and to ensuring that the new organization responds to the needs of the sectors FSCO regulates. During the period leading up to the merger, FSCO will continue to adopt efficiency improvements within its own operations and will maintain uninterrupted service to stakeholders.

REGULATORY ENVIRONMENT

As of March 31, 2001, FSCO's regulatory responsibilities encompass 6,312 pension plans, 318 credit unions and caisses populaires, 390 mortgage brokers, three loan and trust companies, 1,485 active co-operative corporations, 430 insurance companies, 34,304 insurance agents, 1,186 insurance adjusters and approximately 3,074 corporate insurance agencies. The regulated sectors represent a significant,

dynamic and evolving industry that has a vital impact on the provincial economy and on the financial security of individuals and families.

In recent years, the Canadian financial services and pension landscape has been dramatically altered by changing industry structures and shifting consumer and pension-plan-beneficiary expectations.

Industry Convergence

Not long ago, each of the four financial services pillars – banks, trust companies, insurers and securities firms – was covered by separate legislation. Cross-ownership between pillars was restricted, and there was little overlap between the products and services offered by each pillar. Deposit-taking institutions, insurers and securities firms operated entirely different businesses. Now business lines have blurred and financial conglomerates are commonplace, producing intense competition for a common customer base.

As the various sectors converge, financial institutions are developing products and services that cross traditional sectoral boundaries and are becoming almost indistinguishable. However, since the regulatory framework is still largely based on the four pillars, similar products performing similar functions may receive different regulatory treatment.

The traditional way of doing things has also resulted in different regulatory regimes in different jurisdictions. Financial institutions operating in various provinces and territories may have to deal with several regulatory authorities. This regulatory patchwork increases costs for the industry and ultimately for the consumer.

The Modern Consumer

From the consumer's perspective, expectations of the financial services industry are changing with demographic trends such as the aging of the baby boom generation. Consumers increasingly seek wealth management in addition to traditional financial protection. One illustration: according to the Canadian Life and Health Insurance Association, segregated fund sales were almost 40 per cent of total premiums in 1999, up from less than 10 per cent in 1990.

Demand for integrated financial services planning is on the upswing and sales representatives often hold multiple licences, with access to a wide range of products. About 70 per cent of life agents in Ontario, for instance, are registered to sell securities.

More Pension Choices

The pension area is also changing. According to the Statistics Canada *Pension Plans in Canada* report at January 1, 1999, defined benefit plans, which provide a predetermined benefit level during retirement, have seen membership decline from 4,582,000 to 4,347,000 from 1995 to 1999. Membership in defined contribution plans has, however, increased from 519,000 to 667,000 members over the same period. Participation has also increased in other capital accumulation plans (CAPs) not regulated by FSCO – such as group registered retirement savings plans, deferred profit-sharing plans and employee profit-sharing plans. Defined contribution plans and other CAPs give members choices about how to invest assets. This marks a departure from the traditional role of the plan administrator with sole fiduciary responsibility for investing funds.

New Distribution and Communications Channels

Also shaping the financial services landscape is the growth of new distribution channels. Today financial products are marketed not only face-to-face but also through direct mail, telephone and the Internet. According to the Canadian Bankers Association, 85 per cent of routine consumer banking transactions are now done electronically.

As e-business advances, financial services providers are not only marketing products like insurance and mortgages online, but are also dealing with suppliers and partnerselectronically. With online business-to-business transactions increasing exponentially, the financial services industry expects regulators to increase their capacity for electronic interaction with the private sector.

Regulatory Challenges

These trends point to the emergence of a single financial services marketplace in Canada, linked by e-business and cutting across both sectoral and jurisdictional boundaries. However, the current regulatory structure continues to segment the financial services industry into product lines based on the four pillars, geographically split, and still paper-intensive.

Disclosure requirements and consumer protections can vary widely across sectors and jurisdictions, potentially leaving consumers ill-equipped to make informed choices. Industry efficiency may also be compromised by a regulatory structure designed for a past era and not flexible enough to adapt quickly to new issues and expectations. A consensus is developing that financial services regulation should be based on functions or activities – not on institutions or distribution channels. This shift in approach is essential if regulation is to keep in step with the changing realities of the marketplace.

International Responses

In response to this imperative, a number of countries are moving to integrate regulatory structures within their borders. For example, in 1999 Australia brought all financial institutions under the supervision of three regulators. One of these agencies regulates the market conduct of the securities, pensions, insurance and banking industries. The United Kingdom is moving in stages to merge several of its financial services regulatory agencies. Ontario joins this international trend with the proposed merger of FSCO and the OSC.

STRATEGIC PRIORITIES

FSCO is committed to being a vigilant, fair-minded and forward-looking regulatory agency with a constructive and responsive presence in Ontario's financial services marketplace. Its mission is to protect consumers and pension plan members and foster a competitive, healthy financial services industry. To meet the challenges of a complex and evolving environment, FSCO's proposed Strategic Priorities for the coming year are to:

- **Provide a fair and balanced regulatory approach**
- **Be a leader in financial services regulation in Canada**
- **Promote and vigorously enforce compliance**
- **Deliver a high standard of customer service.**

The following sections outline the initiatives FSCO proposes in order to implement these Strategic Priorities over the coming year. In many cases, the actions planned build on progress achieved in the previous year. Where this is so, the text notes recent accomplishments as well as indicating the further measures to be taken in the year ahead.

FAIR AND BALANCED REGULATORY APPROACH

A key FSCO objective is to *sustain public confidence* in the regulated sectors. A fair and balanced regulatory approach is crucial – an approach that strengthens consumer protection while being flexible enough to foster competition and innovation. In continuing to provide such an approach in the coming year, FSCO will:

- » recommend legislative and policy changes to the government to enhance the regulatory framework;
- » continue to improve the efficiency and effectiveness of regulatory processes;
- » work with automobile insurance stakeholders to maintain a fair and stable system; and
- » monitor FSCO's fee and assessment structure and consider adjustments as needed.

Enhancing the Regulatory Framework

- The government has announced it will hold a public consultation on *new pension surplus rules*, and has extended the existing regulation concerning surplus withdrawal on plan windup until December 31, 2001. FSCO will work with the Ministry of Finance to develop options for consultation with the pension stakeholders on new surplus rules.
- FSCO will propose regulatory amendments to permit *flexible pension plans*, which allow members to purchase ancillary benefits through optional tax-deductible contributions.
- In conjunction with its Accounting and Assurance Advisory Committee, FSCO will review *financial information reporting requirements for pension plans*.
- In the insurance sector, FSCO is continuing its review of *licensing and supervision requirements*. With the help of a stakeholder working group, proposals have been developed for changes to requirements on such topics as: specialized licence categories; referrals and commission splitting; an indemnity fund; group contract distribution; accountability; supervision; ownership requirements for corporate distributors; and part-time employment. FSCO will bring recommendations to the government for improving consumer protection in a changing insurance industry.
- Following the passage of amendments to the *Insurance Act* contained in the *Red Tape Reduction Act, 2000*, FSCO is designing a proposal for a regulatory system for *viatical settlement business*. Consultations with consumers and other stakeholders on proposals for the regulatory system will take place.
- As announced in the May 9, 2001 Ontario Budget, FSCO will develop proposed legislative amendments to implement a more flexible *prudent portfolio approach to investment by insurers*. Extensive stakeholder consultations have been completed on this initiative.
- FSCO has drafted proposals to amend the *Insurance Act* to enhance the role of the *appointed actuary* in preserving the financial stability of insurance companies, and will recommend these changes to the government. Extensive stakeholder consultations have also been completed on this initiative.
- To support a balanced regulatory environment for auto insurance, FSCO will work with the Ministry of Finance in any review of auto insurance legislation and regulations. FSCO will also propose changes in regulations regarding *group auto insurance marketing and rating* to clarify the rights and responsibilities of consumers, insurers, brokers and group plan sponsors.
- *The Motor Vehicle Accident Claims Fund* (MVACF), administered by FSCO, provides compensation to victims of automobile accidents involving uninsured or unidentified vehicles. In the coming year, FSCO will update financial projections and review options for ensuring stable long-term funding, so MVACF continues to meet its consumer protection mandate.
- The *Red Tape Reduction Act, 1999* requires the Superintendent to review the *Mortgage Brokers Act*. An ongoing Mortgage Broker Advisory Committee has been established, and one of its first tasks will be to assist the Superintendent with the review. The Superintendent will submit recommendations to improve the *Act's* effectiveness and administration to the Minister of Finance by September 30, 2001.
- In line with a commitment in the 2000 Ontario Budget, FSCO will continue to work with the Ministry of Finance to streamline the *regulatory framework for co-operative corporations*.

Efficient and Effective Processes

- In the coming year, FSCO will continue discussions on the possible transfer of FSCO's *prudential examination work* to the

federal regulator. This shift may make better use of regulatory resources and enable FSCO to concentrate on its market conduct responsibilities.

- Automobile insurers are required to obtain FSCO approval to change their rates or systems for classifying risks. In February 2001, FSCO issued updated filing guidelines, based on an external consultant's report and a review of the recommendations by an industry working group. The new guidelines introduce an additional streamlined process for filing private passenger rate changes, known as *Respond to Market* (R2M), for insurers meeting certain criteria. The new process will enable insurers to respond more rapidly to market conditions, as less detailed filing information is required and FSCO's review process will be quicker. R2M criteria are to be updated annually and FSCO will retain a financial expert to assist with the filing criteria for 2002.
- The *Pension Benefits Guarantee Fund* maintains a minimum level of protection for members of defined benefit pension plans. In consultation with appointed administrators, FSCO last year streamlined the process for ordering wind-ups of plans of insolvent companies.

Supporting a Stable Auto Insurance System

- With FSCO's support, Hon. George Adams assisted the auto insurance industry and health care providers to negotiate *fee and utilization guidelines* last year. Agreements were reached with psychologists and with audiologists and speech-language pathologists. Chiropractors, nurses and massage therapists did not conclude agreements, and FSCO will continue to work on establishing guidelines for these groups in the year ahead. FSCO also plans to establish an ongoing system for introducing or updating fee and utilization guidelines, to help stabilize medical and rehabilitation costs.
- Auto insurers and health care providers have received a report commissioned by FSCO concerning a *standardized billing form* for use by providers. FSCO will continue to co-operate with the industry to introduce a paper and electronic billing form for the invoicing of medical and rehabilitation services.
- In recent years, extensive guidelines have been developed for the efficient operation of *Designated Assessment Centres* (DACs), which provide impartial assessments of automobile accident injuries. In the coming year, increased emphasis will be placed on monitoring adherence to the guidelines. FSCO will complete compliance reviews on all DACs over the next two years and develop a protocol for on-site examinations.
- FSCO will work with the industry to bring about changes to the *auto insurance statistical plans*, which support fair rates and classification systems. One objective will be to capture more detailed data on how companies rate by territory. FSCO received a consulting study on territorial rating in the summer of 2000, but more statistical information is required to determine how to protect consumers. FSCO will also seek to have a statistical database developed on medical and rehabilitation costs.
- The *Canadian Loss Experience Automobile Rating* (CLEAR) system underpins the auto insurance industry's vehicle rating process. CLEAR groups cars by their actual claims experience so insurance premiums can be accurately aligned with risks. FSCO will closely review proposals to update the CLEAR methodology.
- The *Facility Association* (FA) provides mandatory auto insurance coverage to high-risk drivers. Following up on a study prepared by a consultant last year, FSCO will work with the FA to maintain the balance between the needs of the insuring public and those of the industry.
- FSCO supports the industry's emphasis on fighting *insurance fraud*. FSCO is represented on the Canadian Coalition Against Insurance Fraud, and will continue to work with stakeholders to examine the costs of fraud and measures to prevent it.

Fair Assessments and Fees

- FSCO is committed to achieving full cost recovery and to apportioning its costs fairly among the regulated sectors while reflecting a user-pay principle. Following extensive sectoral consultations, FSCO in 2000-2001 expanded its *cost-recovery program* to include a new assessment system for the loan and trust and credit union and caisse populaire sectors, and adopted a new fee schedule. FSCO will review the cost accounting framework and consider revisions to the allocation methodology as needed. As well, insurance licensing and mortgage broker fees will be reviewed. FSCO will also monitor the impact of the changes to ensure effectiveness, especially with respect to transaction-based fees.

LEADER IN FINANCIAL SERVICES REGULATION IN CANADA

FSCO is playing a lead role in developing a co-ordinated national regulatory system for the financial services industry. With the strong support of FSCO and other regulators, Canadian financial services regulation has entered a new phase in harmonization and coordination. In the coming year, FSCO will continue to provide leadership and support for national co-ordination through three national bodies:

- » The Joint Forum of Financial Market Regulators (Joint Forum), which is a forum representing the Canadian Association of Pension Supervisory Authorities (CAPSA), the Canadian Council of Insurance Regulators (CCIR) and the Canadian Securities Administrators (CSA) that pro-actively facilitates and coordinates the development of harmonized cross-sectoral and cross-jurisdictional solutions to financial services regulatory issues;
- » CCIR, which advances consumer protection and regulatory harmonization in the insurance sector; and
- » CAPSA, which works to enhance the security of the pension plan promise and to simplify and harmonize regulatory requirements for pension plans.

National Co-ordination

- The three national bodies address key issues through committees and projects led by various regulators from around the country. To support ongoing co-ordination and harmonization efforts, CCIR and CAPSA have established permanent secretariats. The Joint Forum is supported by a project management office. FSCO looks forward to building on these national collaborative links in the coming year and beyond.

Joint Forum Projects

- The Joint Forum broke new ground in the fall of 2000 with the decision to create a *Task Force on Consumer Dispute Resolution* made up of senior representatives from the private and public sectors. The Task Force has a mandate to design an integrated approach to the management of complaints and the resolution of disputes for all financial services consumers across Canada. The Task Force began work in February 2001 and expects to develop recommendations over the coming year.
- FSCO co-chairs a subcommittee co-ordinating implementation of a Joint Forum Plan to harmonize the *regulation of mutual funds and individual variable insurance contracts* (segregated funds), including the development of a consumer's guide to mutual funds and segregated funds. FSCO expects to recommend revised insurance industry guidelines for approval as an Ontario regulation in 2001-2002.
- Also under the auspices of the Joint Forum, insurance and securities regulators have developed uniform proficiency requirements for financial services intermediaries holding themselves out as *financial planners*. In Ontario, a securities rule and an insurance regulation containing similar proficiency requirements

have been developed in consultation with stakeholders. Amendments to improve the clarity and scope of the rule are being discussed with stakeholders and the expectation is that the new proficiency requirements will be in place in 2002.

- The Joint Forum is developing *nationwide practice standards* – a code of conduct – to apply to all financial services intermediaries, so consumers of all financial products will have a comparable level of protection. The Joint Forum expects to release a draft code of conduct for consultation in the summer of 2001.
- A discussion paper was released in April 2001 on national *investment disclosure standards for capital accumulation plans* providing retirement benefits to employees. After considering the responses, the Joint Forum expects to finalize recommendations later this year.

CCIR Initiatives

- In June 2000, CCIR adopted a series of *Principles for Consumer Protection* including five high-level standards – Disclosure, Consumer Education, Effective Regulators, Educated and Ethical Intermediaries and Consumer Remedies – plus 15 specific commitments. These principles will guide all of CCIR's consumer protection projects and set a benchmark for gauging progress.
- In April 2000, FSCO was instrumental in securing endorsement by the other regulators of a national consumer protection strategy on *point-of-sale disclosure* and *policy contract wording* in the life industry. A CCIR working group chaired by FSCO will further develop these proposals, plus recommendations for *errors and omissions coverage*, in the coming year.
- CCIR and the Canadian Insurance Services Regulatory Organizations have proposed a new national, harmonized entry *proficiency standard for life agent education*. In the year ahead, FSCO plans to seek Ontario government approval of regulatory changes necessary for some aspects of the new proficiency model and an enhanced licensing examination.
- A further harmonization measure by CCIR is to develop a series of nationally accepted, flexible and fewer *classes of insurance*, as well as a streamlined approval process for adding or deleting classes. Proposals were released for industry consultation in November 2000, and FSCO will support implementation of this initiative in the coming year.
- Another CCIR project is developing a revised set of *minimum capital test requirements* for property and casualty insurers. CCIR expects to finalize the package for introduction for year-end 2001 reporting across the country.
- In addition to its contribution to national regulatory initiatives, FSCO will continue to be an active member of the *International Association of Insurance Supervisors*, an organization of about 100 insurance regulators from around the world.

CAPSA Initiatives

- In an effort to find lasting solutions regarding the regulation of multi-jurisdictional pension plans, CAPSA has developed *principles for a model pension law* and will hold wide-ranging consultations in the coming year. Following these consultations, CAPSA will submit the principles for consideration by governments across Canada. As a short-term response to the issue of multi-jurisdictional plans, CAPSA intends to develop a revised reciprocal agreement by December 31, 2001, and submit it for consideration by the appropriate authorities across Canada. FSCO is a key player in both these initiatives.
- Common guidelines for *pension plan governance* as well as an implementation tool have been prepared with industry input. The guidelines and implementation tool were released for consultation with pension stakeholders in May, 2001. FSCO will

work with CAPSA to finalize these materials in the coming year based on input received during the stakeholder consultations.

- CAPSA has established an *Investment Policy Committee* to resolve investment issues on behalf of CAPSA jurisdictions that have adopted the federal investment regulations. Ontario is one of these jurisdictions and FSCO takes an active part in the committee, which plans to develop solutions to investment issues in consultation with the pension industry for recommendation to CAPSA.

PROMOTE AND VIGOROUSLY ENFORCE COMPLIANCE

FSCO works to ensure that the regulated sectors conduct business in accordance with legislation. A high rate of compliance protects consumers and pension plan beneficiaries, preserves a level playing field across the industry and reduces the need for regulatory intervention. To increase compliance, FSCO in the coming year will:

- » continue to shift toward a risk-based approach that concentrates resources on pension plans requiring closer supervision;
- » actively promote pension plan compliance; and
- » increase the focus on the market conduct of insurers.

Risk-Based Pension Supervision

- FSCO's Pension Plans Branch will continue restructuring to pave the way for *risk-based supervision* of plans through better use of technology. Computerized screening of information will give early warning of possible problems, further protecting the pension plan beneficiaries.
- In initial steps last year, the annual information return, actuarial information summary, application for plan registration and application for registration of amendments were redesigned to enable the inputting of essential information in a central database. In 2001-2002, FSCO will overhaul and link *pension computer systems* in a single, integrated platform. New business processes will improve compliance monitoring and enable authorized users to access information on pension plans and transactions through the FSCO website.
- All valuation reports filed after July 1, 2000, must be accompanied by an *actuarial information summary* (AIS). Computerized screening is in place to identify high-risk plans for closer supervision, based on information in the AIS. FSCO will complete final testing and then implement the new screening system in the coming year.

Pension Plan Compliance

- Last year FSCO undertook more *enforcement activity in the pension area*, resulting in several successful prosecutions for non-compliance with filing requirements. FSCO will continue to deal promptly with non-compliant plans.
- FSCO also designed an *audit process for pension plans* and conducted the first audits. The audit process will continue as an ongoing feature of pension regulation, with a selection of plans to be examined each year.
- FSCO's *pension policies* guide the application and interpretation of pension legislation. More than 300 pension policies are now posted on the FSCO website, and approximately 250 of these have been reviewed in recent years. FSCO will complete the review of half of the remaining policies in 2001-2002 and the balance in the following fiscal year. Up-to-date policies foster compliance by helping the industry to better understand its obligations.

Focus on Insurers' Market Conduct

- Last year, FSCO introduced a *market conduct review program for life and health insurers* in close collaboration with the

industry. CCIR endorsed the program, making it a national initiative to increase consumer confidence in the industry's business practices. The review process has two steps: completion of a self-assessment questionnaire by insurers, followed by on-site audits by each regulator. In the first year, the process measured compliance with regulatory requirements and industry guidelines in the areas of complaints handling, claims handling, and agent screening, monitoring and reporting. In the coming year, the second audit cycle will begin and FSCO will work with the industry and other regulators to undertake reviews in other areas of company operations.

- FSCO is developing a similar approach to streamline the current *market conduct audits of automobile accident benefits claims operations*. Eventually, market conduct reviews could be applied to other areas of property and casualty insurance. FSCO will work with the industry to develop these initiatives.

DELIVER A HIGH STANDARD OF CUSTOMER SERVICE

FSCO is committed to delivering a high standard of *customer service to consumers*, businesses and other stakeholders. This commitment reflects the Ontario government's determination to become more customer-centred. In response to changing expectations, FSCO will:

- » accelerate the move to e-business and electronic service delivery to facilitate information exchange, expedite transactions and reduce paperwork;
- » enhance its performance measurement and Quality Service programs;
- » improve service to pension plan stakeholders;
- » maintain the commitment to quality and efficiency at the FST;
- » increase access to consumer remedies; and
- » promote consumer information and education.

Expanding E-Business

In the year ahead, FSCO will work towards the development of an Electronic Service Delivery plan that includes the following initiatives:

- In May 2001, FSCO implemented the initial phase of an *Internet system for licensing of insurance agents* – a first in Canada. Agents will be able to renew licences, update personal information, change licence status and pay applicable fees online, 24 hours a day, seven days a week.
- FSCO's web-based, password-protected *case directory* provides auto insurance companies with up-to-date information on the status of their active mediation, arbitration and appeal files. Access to the latest information should encourage quicker settlements. In addition, the fourth edition of the *Dispute Resolution Practice Code*, including all forms, has been published and posted on the FSCO website.
- With the objective of *eliminating barriers to e-business*, FSCO has undertaken a thorough review of the legislation and regulations it administers. This review is ongoing and in the year ahead will centre on legal analysis of specific e-business plans, particularly regarding privacy and security issues.
- FSCO is collaborating with other regulators to explore opportunities to encourage the growth of e-business and conduct regulatory activities electronically.

In 2000-2001, FSCO supported the creation of *websites for CCIR and CAPSA*.

FSCO participated in the CAPSA Electronic Commerce Working Committee which has developed guidelines for elec-

tronic communications between pension plan members and administrators. These guidelines were released for consultation with pension stakeholders in May 2001. The guidelines will be finalized later this year based on input received during the stakeholder consultations.

In 2001-2002, FSCO will also support *CCIR e-commerce initiatives* to develop guidelines based on international principles, assess current and future use of e-commerce by insurers, identify regulatory barriers to doing business online, and propose measures to improve consumer protection in an electronic environment.

Performance Measurement and Quality Service

- Recognizing its accountability to the industry, FSCO in 2000-2001 developed an improved *performance measurement system*. The new system will be implemented in the coming year and the results of FSCO's performance measurement will be regularly communicated to stakeholders.
- In the year ahead, FSCO will enhance its *Quality Service program*, established in line with the government-wide initiative, to reinforce its reputation as a customer-focussed, results-driven organization. Standards and best practices will be adopted in key areas.

Improved Pension Stakeholder Service

- FSCO has successfully implemented the provisions of the *Pension Benefits Statute Law Amendment Act, 1999* for *access to locked-in retirement accounts* in cases of serious financial hardship. Procedures for handling such applications will be refined as needed over the next few months.
- Last year, FSCO developed *time lines for the processing of priority pension transactions* and confirmed these service standards through stakeholder discussion. In 2001-2002, FSCO will put in place an automated system for implementing these time lines.
- FSCO worked with the Canadian Life and Health Insurance Association on a *standardized wind-up report for defined contribution plans*. In the coming year, FSCO intends to introduce a streamlined process for reviewing wind-up reports based on the standardized format.
- *Advance FSCO rulings on complex pension issues*, similar to advance taxation rulings, could assist pension plans in meeting regulatory requirements. The industry was consulted on a draft policy last year. Based on significant input received from pension stakeholders, a revised draft policy was released in May 2001 for further consultation with the pension industry. Following these consultations, FSCO will proceed to implement this important client service initiative.

Financial Services Tribunal

- The FST last year introduced *streamlined procedures* for responding to requests for hearings on Superintendent decisions regarding access to locked-in funds in cases of financial hardship.
- In the year ahead, the FST's Legal Advisory Committee will continue with the ongoing review of the FST's *Rules of Practice and Procedure*.
- The FST will also continue to develop *standards and measures* to improve quality and efficiency in the hearing and decision-making process.

Increasing Access to Consumer Remedies

- FSCO is working to establish and expand alternatives for resolving consumer complaints and disputes involving the regu-

lated sectors quickly, fairly and inexpensively. FSCO is reviewing options for extending its *dispute resolution (DR) services* for auto accident benefits claims to other kinds of disputes.

- FSCO will also test the feasibility of moving beyond the current DR mandate to provide the broader insurance sector as well as other financial services parties with alternatives for *expedited and low-cost dispute resolution*. FSCO intends to launch pilot projects on these directions in the coming year, in consultation with interested stakeholders.
- In the coming year, the *Ombudsman's Office* will take initial steps to expand its services beyond the insurance field. The office will track and report on all written complaints about FSCO's regulated sectors, as well as launch a pilot project to determine the types of pension complaints it could usefully handle. In addition, the office will work with stakeholders to formulate common standards for complaint-handling, based on best practices.

Consumer Information and Education

- FSCO's *call centre* will open in 2001 to provide consumers and other stakeholders with one-window telephone access and response to information needs more quickly and effectively. Fine-tuning will take place over the first few months and the tracking of complaint data will identify emerging trends and information needs.
- To help consumers understand the products they buy and the services they use, FSCO released seven new or updated *consumer publications* in May 2000. FSCO also worked with News Canada to place items with community newspapers and local broadcast outlets. *Consumer articles and TV spots* on FSCO will continue to appear in 2001-2002 through News Canada, to provide the information consumers need to make more informed choices about financial products and services.
- FSCO will also support co-ordination and co-operation with other financial services regulators on *consumer information and education initiatives*.

CONCLUSION

This statement has outlined FSCO's proposed Strategic Priorities for the coming year, together with the reasons for their adoption and the steps to implement them. We look forward to working with our many stakeholders to achieve our objectives and thereby sustain a fair, efficient and effective financial services marketplace where consumers are protected and competition thrives.

CONCLUSION 1086**INTRODUCTION**

La Commission des services financiers de l'Ontario (CSFO) est un organisme de réglementation et d'arbitrage établi sous le régime de la *Loi de 1997 sur la Commission des services financiers de l'Ontario* (la « Loi »). Elle relève du ministre des Finances.

En vertu de l'article 11 de la Loi, la Commission est tenue de soumettre au ministre des Finances et de publier, au plus tard le 30 juin de chaque année, un énoncé des priorités qu'elle propose de se donner pour l'exercice suivant. Le présent document constitue le quatrième énoncé des priorités de la CSFO. Il donne les grandes lignes de ses priorités stratégiques et une ébauche du milieu réglementaire sur lequel porteront ces priorités; il fait état des récents progrès et décrit les initiatives prévues pour l'exercice à venir.

La CSFO réglemente les assurances, les régimes de retraite, les sociétés de prêt et de fiducie, les caisses populaires et les *credit unions*, les courtiers en hypothèques et les coopératives de l'Ontario. Elle a pour mandat de veiller aux intérêts de la population et d'accroître la confiance du public envers les secteurs réglementés. Pour ce faire, la CSFO fournit des services de réglementation qui protègent les consommateurs et les bénéficiaires des régimes de retraite, et appuient une industrie à la fois saine et concurrentielle.

La CSFO regroupe

- » un Conseil, formé de cinq membres, qui s'acquie de certaines responsabilités en vertu de la Loi; il doit notamment soumettre des recommandations au ministre des Finances sur des questions touchant les secteurs réglementés;

- » une directrice générale et surintendante des services financiers — il lui incombe d'assurer la surveillance générale des secteurs réglementés, d'administrer et d'appliquer la Loi et d'autres textes réglementaires régissant les secteurs réglementés, et de surveiller la situation financière et l'administration de la CSFO. Le personnel de cette dernière aide la directrice générale et surintendante à s'acquie de ses tâches;

- » le Tribunal des services financiers (TSF) est un organisme d'arbitrage qui tient des audiences au sujet des décisions réglementaires que la surintendante a prises ou qu'elle se propose de prendre.

Dans l'exécution de son mandat, la CSFO passe continuellement en revue les enjeux qui influent sur les participants du marché, ainsi que ses propres réactions face à ces enjeux. Pour obtenir suggestions et rétroaction, la CSFO entretient des rapports avec de nombreux intervenants, y compris les fournisseurs et les consommateurs de services financiers, les administrateurs et les bénéficiaires des régimes de retraite, les conseillers professionnels et les consultants, et d'autres organismes fédéraux et provinciaux de réglementation. Divers comités et autres voies de communication ont été mis sur pied pour faciliter un dialogue permanent.

La CSFO a ses bureaux au nord de Toronto. Elle compte environ 385 employés à plein temps et dispose d'un budget de 36 millions de dollars pour l'exercice financier 2000-2001. La CSFO cherche à rentabiliser les ressources qui lui sont attribuées, tant sur le plan de la protection des consommateurs et des bénéficiaires des régimes de retraite que sur le plan de la promotion d'un climat commercial favorable.

Projet de fusionnement avec la CVMO

En mai 2000, le ministre des Finances a annoncé une nouvelle étape dans l'intégration de la réglementation des services financiers en Ontario — le fusionnement de la CSFO avec la Commission des valeurs mobilières de l'Ontario (CVMO) en un seul organisme de réglementation des marchés financiers et du secteur des services financiers en Ontario. La loi portant sur la création du nouvel organisme et sur la description de ses responsabilités et pouvoirs de réglementation devrait être déposée en 2001. L'organisme consolidé permettra de mieux protéger les consommateurs, les investisseurs et les bénéficiaires des régimes de retraite, de mettre en œuvre des mesures réglementaires opportunes face à la structure changeante des marchés et de favoriser l'évolution d'un milieu concurrentiel et sain dans l'industrie des services financiers en Ontario.

En septembre 2000, le gouvernement a publié un document de consultation sur la fusion. Il y proposait la création de la Commission des services financiers de l'Ontario à titre de société de la Couronne autofinancée, investie du pouvoir d'établir les règles régissant les services financiers de la province. Il proposait également de mettre sur pied un Tribunal des services financiers pour s'occuper des questions liées aux régimes de retraite. En avril 2001, le ministre des Finances a déposé un projet de loi établissant une autre série de consultations sur la fusion.

La CSFO a pour objectif de garder tous les intervenants au courant de l'avancement des travaux de fusion et de veiller à ce que le nouvel organisme remplisse les besoins des secteurs réglementés. Durant la période de fusionnement, la CSFO continuera d'améliorer l'efficacité de ses opérations et assurera un service ininterrompu aux intervenants.

CONTEXTE DE LA RÉGLEMENTATION

Le 31 mars 2001, les responsabilités de la CSFO en matière de réglementation s'étendaient à 6 312 régimes de retraite, 318 caisses populaires et *credit unions*, 390 courtiers en hypothèques, trois sociétés de prêt et de fiducie, 1 485 sociétés coopératives actives, 430 sociétés d'assurances, 34 304 courtiers d'assurance, 1 186 experts en sinistres et quelques 3 074 regroupements d'assureurs. Les secteurs réglementés forment une industrie d'envergure, dynamique et évolutive, qui joue un rôle clé dans l'économie provinciale et contribue nettement à la sécurité financière des particuliers et des familles.

Au cours des dernières années, le paysage des services financiers et des régimes de retraite a été considérablement transformé par la modification des structures industrielles et par les attentes des bénéficiaires à l'égard des régimes de retraite.

Convergence de l'industrie

Il n'y a pas si longtemps, chacun des quatre piliers des services financiers – les banques, les sociétés de fiducie, les sociétés d'assurance et les courtiers en valeurs mobilières – faisaient l'objet de lois distinctes. La propriété croisée était restreinte, et peu de produits et de services offerts par chacun de ces piliers se chevauchaient. Les établissements de dépôt, les assureurs et les courtiers en valeurs mobilières avaient des opérations totalement distinctes. Aujourd'hui, les axes affaires se démarquent de moins en moins; les conglomerats financiers sont monnaie courante et se disputent avec acharnement une clientèle commune.

À mesure que convergent les divers secteurs, les établissements financiers mettent au point des produits et services qui dépassent les frontières sectorielles traditionnelles et qui deviennent de plus en plus difficiles à distinguer les uns des autres. Mais, étant donné que le cadre réglementaire dépend encore largement des quatre piliers, des produits similaires, offrant des fonctions semblables, pourront faire l'objet d'une réglementation différente.

La manière traditionnelle de faire les choses a également produit des régimes réglementaires distincts au sein d'administrations différentes. Les établissements financiers qui ont des exploitations dans plusieurs provinces et territoires relèvent d'autorités administratives différentes. Cette mosaïque réglementaire a pour effet d'augmenter les coûts pour l'industrie et, en bout de ligne, pour le consommateur.

Le consommateur d'aujourd'hui

Du point de vue du consommateur, les attentes de l'industrie des services financiers changent en fonction des tendances démographiques, comme la génération vieillissante du baby-boom. Outre la protection financière traditionnelle, les consommateurs réclament de plus en plus des services de gestion d'actif. À titre d'exemple, l'Association canadienne des compagnies d'assurances de personnes inc. indique que les ventes de fonds distincts représentaient presque 40 % du total des primes d'assurance en 1999, par rapport à moins de 10 % en 1990.

La demande de planification intégrée des services financiers se fait pressante; les représentants de vente sont souvent titulaires de plusieurs permis et ont accès à une vaste gamme de produits. Ainsi, en Ontario, quelque 70 % des agents d'assurance-vie sont également autorisés à vendre des valeurs mobilières.

Un choix accru en matière de régimes de retraite

Le secteur des régimes de retraite évolue également. Selon le rapport de Statistique Canada intitulé *Régimes de pension au Canada* et daté du 1^{er} janvier 1999, les régimes à prestations déterminées, qui offrent des prestations d'un montant déterminé, ont connu une baisse du nombre de leurs participants, qui est passé de 4 582 000 en 1995 à 4 347 000 en 1999. D'autre part, le nombre de participants des régimes à cotisations déterminées s'est accru considérablement, passant de 519 000 à 667 000 au cours de la même période. La participation aux autres régimes de capitalisation non réglementés par la CSFO, comme les régimes enregistrés d'épargne-retraite collectifs, les régimes de participation différée aux bénéfices et les régimes d'intéressement, a également augmenté. Les régimes à cotisations déterminées et autres régimes de capitalisation donnent aux participants plus de choix en matière d'investissement de l'actif. Cette nouvelle orientation se démarque donc du rôle traditionnel de l'administrateur de régime qui avait la responsabilité fiduciaire entière du placement des fonds.

Nouveaux mécanismes de distribution et de communication

On voit également se profiler dans le paysage des services financiers la croissance de nouveaux canaux de distribution. Aujourd'hui, on ne

commercialise pas seulement les produits financiers en personne, mais également par publipostage direct, par téléphone et par Internet. Selon l'Association des banquiers canadiens, les consommateurs effectuent 85 % de leurs transactions bancaires ordinaires par voie électronique.

Grâce aux progrès réalisés par les affaires électroniques, les prestataires de services financiers commercialisent en ligne des produits comme l'assurance et les hypothèques, mais ils font également affaire avec leurs fournisseurs et leurs partenaires par voie électronique. Maintenant que les transactions interentreprises connaissent une croissance exponentielle, le secteur des services financiers s'attend à ce que les organismes de réglementation améliorent leur interaction électronique avec le secteur privé.

Enjeux du milieu de la réglementation

On observe donc, au Canada, l'émergence d'un marché unique des services financiers reposant sur les affaires électroniques et transcendant les barrières entre les secteurs et les administrations. En revanche, le régime réglementaire en place continue de segmenter l'industrie des services financiers en gammes de produits, sur la base des quatre piliers, selon un morcellement géographique gourmand de formalités administratives.

Les exigences en matière de divulgation des renseignements et de mesures de protection du consommateur divergent considérablement d'un secteur et d'une compétence à l'autre, ce qui place mal les consommateurs pour prendre des décisions éclairées. L'efficacité de l'industrie est également minée par une structure réglementaire appartenant à des temps révolus et qui n'est pas assez souple pour s'adapter rapidement aux nouveaux enjeux et aux nouvelles attentes. Il en émerge un consensus selon lequel la réglementation des services financiers doit reposer sur les fonctions ou les activités, et non sur les établissements ou les canaux de distribution. Il est donc essentiel de modifier l'approche pour que la réglementation se maintienne à la hauteur des réalités changeantes du marché.

Mesures prises à l'échelle internationale

Face à cette réalité, plusieurs pays ont entrepris d'intégrer le régime réglementaire à l'intérieur de leurs frontières. Ainsi, en 1999, l'Australie a placé tous les établissements financiers sous la supervision de trois organismes de réglementation. L'un de ces organismes réglemente les pratiques du marché des valeurs mobilières, des régimes de retraite, des assurances et du marché bancaire. D'autre part, le Royaume-Uni procède par étapes au fusionnement de plusieurs de ses organismes de réglementation des services financiers.

L'Ontario s'inscrit dans cette tendance internationale avec son projet de fusionnement de la CSFO et de la CVMO.

PRIORITÉS STRATÉGIQUES

La CSFO est déterminée à devenir un organisme de réglementation vigilant, équitable et prospectif, et à adopter une attitude constructive et réceptive à l'égard du marché ontarien des services financiers. Elle a pour mission de protéger les consommateurs et les participants des régimes de retraite, et de favoriser un secteur des services financiers sain et concurrentiel. Pour relever les défis d'un milieu complexe en pleine évolution, la CSFO entend s'attaquer aux priorités stratégiques suivantes pour l'exercice à venir :

- **appliquer une approche équitable et équilibrée en matière de réglementation;**
- **être un chef de file de la réglementation des services financiers au Canada;**
- **promouvoir la conformité et appliquer rigoureusement les mécanismes pertinents;**
- **fournir un service à la clientèle de grande qualité.**

Les pages qui suivent décrivent les initiatives que se propose d'adopter la CSFO pour mettre en œuvre ces priorités stratégiques au cours de

l'exercice à venir. Dans de nombreux cas, les mesures proposées s'ajoutent aux progrès réalisés au cours de l'exercice précédent. Lorsque tel est le cas, il est fait mention des dernières réalisations ainsi que des mesures qui seront prises au cours du prochain exercice.

APPROCHE ÉQUITABLE ET ÉQUILBRÉE EN MATIÈRE DE RÉGLEMENTATION

L'un des principaux objectifs de la CSFO est de maintenir la confiance du public dans l'industrie des services financiers. Une approche équitable et équilibrée en matière de réglementation est essentielle, et elle doit notamment renforcer la protection des consommateurs tout en étant suffisamment souple pour favoriser la concurrence et l'innovation. Pour être en mesure d'adopter une telle approche au cours de l'exercice à venir, la CSFO :

- » recommandera au gouvernement des modifications législatives et d'orientation pour améliorer le cadre réglementaire;
- » continuera d'améliorer l'efficacité et l'efficacités des processus réglementaires;
- » travaillera de concert avec les intervenants du secteur de l'assurance-automobile au maintien d'un régime équitable et stable;
- » surveillera son barème de droits et de cotisations, et effectuera des modifications au besoin.

Améliorer le cadre réglementaire

- Le gouvernement a annoncé qu'il tiendra des consultations publiques sur l'adoption de *nouvelles règles à l'égard de l'excédent des caisses de retraite* et qu'il a prorogé jusqu'au 31 décembre 2001 la réglementation en vigueur sur le retrait de l'excédent au moment de la liquidation d'un régime de retraite. En collaboration avec le ministère des Finances, la CSFO élaborera diverses options de consultation auprès des intervenants du secteur des régimes de retraite sur les nouvelles règles à adopter à l'égard de l'excédent.
- La CSFO proposera également des modifications réglementaires pour des *régimes de retraite souples*, qui permettront aux participants d'acquiescer des avantages complémentaires, par le biais de cotisations déductibles facultatives.
- Conjointement avec son comité consultatif en comptabilité et assurances, la CSFO examinera les *exigences relatives à la présentation de rapports financiers sur les régimes de retraite*.
- Dans le secteur des assurances, la CSFO poursuivra son examen des *exigences en matière de délivrance de permis et de supervision*. Appuyée par un groupe de travail formé d'intervenants, elle a mis au point des projets de modification des exigences concernant, entre autres, les catégories de licences spécialisées, l'aiguillage et le partage des commissions, un fonds d'indemnisation, la distribution des polices d'assurance collectives, la reddition de comptes, la surveillance, les exigences en matière de propriété applicables aux distributeurs intégrés et le travail à temps partiel. La CSFO soumettra au gouvernement des recommandations pour améliorer la protection des consommateurs face à un secteur des assurances en pleine mutation.
- À la suite de l'adoption des modifications apportées à la *Loi sur les assurances* par la *Loi de 2000 visant à réduire les formalités administratives*, la CSFO est à concevoir un système de réglementation de l'*escompte des polices d'assurance-vie*. On mènera des consultations auprès des consommateurs et d'autres intervenants sur le système de réglementation projeté.
- Tel qu'annoncé dans le Budget de l'Ontario du 9 mai 2001, la CSFO proposera également des modifications législatives qui veilleront à l'assouplissement du principe de *gestion prudente du portefeuille à l'égard des placements effectués par les assureurs*. Afin de mener à bien ces initiatives, la CSFO s'est longuement entretenue avec divers intervenants.

- La CSFO a élaboré un avant-projet de modification de la *Loi sur les assurances* pour améliorer le rôle de l'*actuaire désigné* en matière de préservation de la stabilité financière des sociétés d'assurance, projet qu'elle soumettra au gouvernement. Ici aussi, afin de mener à bien ces initiatives, la CSFO s'est longuement entretenue avec divers intervenants.
 - Pour favoriser un milieu de réglementation équilibré à l'égard de l'assurance-automobile, la CSFO collaborera avec le ministère des Finances à tout examen des lois et règlements en matière d'assurance-automobile. Elle proposera également des modifications réglementaires visant la *commercialisation de l'assurance-automobile collective et les tarifs*, qui clarifieront les droits et responsabilités des consommateurs, assureurs, courtiers et promoteurs de régimes d'assurance collective.
 - *Le Fonds d'indemnisation des victimes d'accidents de véhicules automobiles*, qu'administre la CSFO, permet d'indemniser les victimes d'accidents de la route impliquant des véhicules non assurés ou non identifiés. Au cours de l'exercice à venir, la CSFO mettra à jour ses projections financières et passera en revue les choix qui assureront un financement stable à long terme, pour que le Fonds continue de s'acquiescer de son mandat de protéger les consommateurs.
 - En vertu de la *Loi de 1999 visant à réduire les formalités administratives*, la surintendante doit revoir la *Loi sur les courtiers en hypothèques*. Un comité consultatif a été déjà mis sur pied et l'une de ses premières tâches sera d'aider la surintendante à mener cet examen. Cette dernière soumettra au ministre des Finances, d'ici le 30 septembre 2001, ses recommandations pour l'amélioration de l'efficacité et de l'administration de la *Loi*.
 - Conformément à l'engagement énoncé dans le Budget de l'Ontario 2000, la CSFO continuera de chercher des moyens de rationaliser le *cadre de réglementation des sociétés coopératives*, en collaboration avec le ministère des Finances.
- #### Des processus empreints d'efficacité et d'efficacités
- Au cours de l'exercice à venir, la CSFO poursuivra ses entretiens sur le transfert éventuel de *ses tâches d'inspection prudentielles* à l'organisme de réglementation fédéral. La CSFO serait ainsi en mesure de mieux utiliser ses ressources et de se concentrer sur ses responsabilités de surveillance des pratiques du marché.
 - Les assureurs automobiles doivent obtenir l'accord de la CSFO pour modifier leurs taux ou leurs systèmes de classification des risques. En février 2001, la CSFO a publié une mise à jour de ses lignes directrices de dépôt, en fonction d'un rapport rédigé par un conseiller externe et d'un examen des recommandations faites par un groupe de travail de l'industrie. Ces nouvelles lignes directrices proposent un nouveau processus simplifié pour le dépôt de modification des tarifs applicables aux voitures de tourisme. Ce nouveau processus permettra aux assureurs de réagir plus rapidement aux conditions du marché, puisque les renseignements à fournir sont moins détaillés et le processus d'examen de la CSFO, plus rapide. Les critères afférents à ce nouveau processus (connu sous le nom de R2M, *Respond to Market*) seront mis à jour annuellement; la CSFO fera appel aux services d'un conseiller financier pour mettre au point les normes de dépôt pour 2002.
 - En vertu du *Fonds de garantie des prestations de retraite* (FGPR), les participants des régimes de retraite à prestations déterminées peuvent compter sur des prestations minimales prédéterminées à la retraite. Au cours du dernier exercice et en consultation avec des administrateurs désignés, la CSFO a simplifié le processus d'ordonnance de liquidation des régimes de retraite des entreprises insolubles.
- #### Favoriser un régime d'assurance-automobile stable
- Grâce à l'appui de la CSFO, l'honorable George Adams a aidé l'an dernier l'industrie de l'assurance-automobile et les

prestataires de soins de santé à négocier un **barème de droits et des lignes directrices d'utilisation**. Des ententes ont été conclues avec les psychologues, et avec les audiologistes et orthophonistes. Aucune entente n'a encore été conclue avec les chiropraticiens, le personnel infirmier et les kinésithérapeutes; cependant, la CSFO poursuivra ses travaux d'élaboration de lignes directrices à l'intention de ces groupes au cours de l'exercice à venir. Elle prévoit également établir un système permanent d'adoption ou de mise à jour des barèmes de droits et des lignes directrices d'utilisation, pour contribuer à stabiliser les frais médicaux et de réadaptation.

- Les sociétés d'assurance-automobile et les prestataires de soins de santé ont reçu un rapport subventionné par la CSFO sur la **normalisation d'une formule de facturation** à l'intention des prestataires. La CSFO poursuivra sa collaboration avec l'industrie pour établir une formule de facturation sur papier et électronique des services médicaux et de réadaptation.
- Au cours des dernières années, on a mis au point des lignes directrices généralisées pour l'opération efficiente des **centres d'évaluation désignés** (CED), qui donnent des évaluations impartiales des blessures reçues dans un accident d'automobile. Au cours de l'exercice à venir, on accordera plus d'importance à la surveillance de la conformité aux lignes directrices. Durant les deux prochaines années, la CSFO mènera des vérifications de la conformité à l'égard de tous les CED et établira un protocole pour les examens sur place.
- La CSFO travaillera de concert avec l'industrie pour apporter des changements aux **plans statistiques en matière d'assurance-automobile**, qui favoriseront des tarifs et des méthodes de classification équitables. Elle aura notamment pour objectif d'obtenir des données plus détaillées sur la manière dont les sociétés établissent leurs tarifs selon le territoire. La CSFO a reçu une étude de consultation sur la tarification en fonction du territoire au cours de l'été 2000, mais il lui faut plus de renseignements statistiques pour déterminer comment protéger les consommateurs. Elle visera également à mettre au point une base de données statistiques sur les frais médicaux et de réadaptation.
- **Le Système de tarification automobile selon la sinistralité canadienne** (système CLEAR) soutient le processus de tarification des véhicules par le secteur de l'assurance-automobile. Selon ce système, les voitures sont regroupées en fonction des antécédents du risque, pour que les primes d'assurance correspondent aux risques. La CSFO passera étroitement en revue les propositions visant à actualiser la méthode CLEAR.
- **La Facility Association** offre une couverture d'assurance-automobile obligatoire aux conducteurs à risque. À la suite d'une étude menée l'an dernier par un conseiller, la CSFO s'efforcera, avec cette association, de maintenir l'équilibre entre les besoins des membres du public et ceux de l'industrie.
- La CSFO appuie les mesures prises par l'industrie pour lutter contre **la fraude à l'assurance**. Elle est représentée au sein de la Coalition canadienne contre la fraude à l'assurance et continuera de collaborer avec les intervenants à l'examen des coûts de la fraude et des moyens de la prévenir.

Des évaluations et des droits équitables

- La CSFO est déterminée à atteindre le recouvrement intégral des coûts et à imputer ses frais aux secteurs réglementés de manière équitable, tout en adhérant au principe de l'utilisateur-payeur. À la suite de vastes entretiens sectoriels, la CSFO a élargi son **programme de recouvrement des coûts** en 2000-2001 pour y ajouter un nouveau système d'évaluation du secteur des sociétés de prêt et de fiducie, et du secteur des caisses populaires et des **credit unions**. Elle a donc adopté un nouveau barème des droits. La CSFO passera en revue le cadre de détermination du coût de revient et envisagera de modifier au besoin la méthode d'imputation. Elle se penchera également sur les frais de délivrance des permis d'assurance et les frais des courtiers en hypothèques. La

CSFO surveillera l'incidence des modifications apportées pour veiller à ce qu'elles soient efficaces, particulièrement à l'égard des droits facturés sur les transactions.

UN CHEF DE FILE DE LA RÉGLEMENTATION DES SERVICES FINANCIERS AU CANADA

La CSFO joue un rôle de premier plan dans l'élaboration d'un système national coordonné de réglementation de l'industrie des services financiers. Forte de l'appui de la CSFO et d'autres organismes du même type, la réglementation des services financiers au Canada a entamé une nouvelle étape d'harmonisation et de coordination. Au cours de l'exercice à venir, la CSFO continuera de faire preuve de leadership et d'appuyer la coordination nationale par le biais de trois organismes nationaux :

- » Le Forum conjoint des autorités de réglementation du marché financier (Forum conjoint), un forum regroupant l'Association canadienne des organismes de contrôle des régimes de retraite (ACOCRR), le Conseil canadien des responsables de la réglementation d'assurance (CCRRA) et les Autorités canadiennes en valeurs mobilières (ACVM), qui favorise et coordonne l'élaboration de solutions intersectorielles et intercompétences harmonisées aux problèmes de réglementation des services financiers.
- » Le CCRRA, qui s'attache à promouvoir la protection des consommateurs et à harmoniser la réglementation dans le secteur des assurances.
- » L'ACOCRR, qui s'efforce d'améliorer la sécurité des régimes de retraite, et de simplifier et d'harmoniser les exigences réglementaires en matière de régimes.

Coordination nationale

Les trois organismes nationaux abordent les principaux enjeux en formant des comités et en menant des projets dirigés par divers organismes de réglementation au pays. Pour appuyer les efforts permanents de coordination et d'harmonisation, le CCRRA et l'ACOCRR ont mis sur pied un secrétariat permanent. Le Forum conjoint est appuyé par un bureau de gestion de projets. La CSFO se réjouit de bonifier ces liens nationaux de collaboration au cours de l'exercice à venir et par la suite.

Projets du Forum conjoint

- À l'automne 2000, le Forum conjoint a innové en mettant sur pied un **groupe d'étude sur la résolution de conflits** avec les consommateurs, réunissant des hauts représentants des secteurs public et privé. Le groupe d'étude est chargé d'élaborer une approche intégrée au traitement des plaintes et à la résolution des conflits pour la clientèle des services financiers à l'échelle du pays. Le groupe d'étude a entamé ses travaux en février 2001 et prévoit mettre au point ses recommandations au cours du prochain exercice.
- La CSFO copréside un sous-comité chargé de coordonner la mise en œuvre d'un plan du Forum conjoint visant à harmoniser **la réglementation des fonds communs de placement et des contrats d'assurance variable** (fonds distincts). La CSFO prévoit soumettre en 2001-2002 des recommandations portant sur de nouvelles lignes directrices pour l'industrie, qui seront adoptées sous forme de Règlement de l'Ontario.
- Toujours sous l'égide du Forum conjoint, les organismes de réglementation des assurances et des valeurs mobilières ont établi des exigences communes quant aux compétences des intermédiaires de services financiers qui se font appeler des **planificateurs financiers**. En Ontario, en collaboration avec des parties intéressées, on a mis au point et soumis à l'examen du gouvernement une règle sur les valeurs mobilières et un règlement sur les assurances qui prévoient des exigences similaires en matière de compétences. Des discussions sont présentement tenues avec divers intervenants afin d'apporter des modifications destinées à clarifier le règlement et à élargir sa portée; de nouvelles exigences devraient ainsi entrer en vigueur en 2002.

- Le Forum conjoint est à mettre au point *des normes de pratiques à l'échelle du pays* — un code de conduite — qui s'appliquera aux intermédiaires de services financiers, pour que la clientèle de tous les produits financiers jouisse d'un niveau de protection comparable. Le Forum prévoit publier une version préliminaire du code de conduite, qui fera l'objet d'une consultation au cours de l'été 2001.
- Un document de travail doit être publié en avril 2001 sur *des normes nationales de divulgation sur les placements à l'intention des régimes de capitalisation* offrant des prestations de retraite aux employés. Une fois qu'il aura étudié les réactions à ce document, le Forum conjoint mettra, au cours de l'exercice, la dernière main à ses recommandations.

Initiatives du CCRRA

- En juin 2000, le Conseil a adopté un ensemble *de principes régissant la protection des consommateurs*, dont cinq normes de haut niveau — Information à fournir, Éducation des consommateurs, Des responsables de la réglementation efficaces, Inter-médiaires bien renseignés et intègres et Recours des consommateurs — ainsi que 15 engagements précis. Ces principes guideront tous les projets de protection des consommateurs du CCRRA et serviront de point de référence pour mesurer les progrès réalisés.
- En avril 2000, la CSFO a contribué à l'adoption par les autres organismes de réglementation d'une stratégie nationale de protection des consommateurs sur la divulgation au *point de vente et sur le langage des contrats d'assurance-vie*. Au cours de l'exercice, un groupe de travail du CCRRA, présidé par la CSFO, énoncera plus en détail ces propositions, ainsi que des recommandations pour *l'assurance erreurs et omissions*.
- Le CCRRA et les organismes de réglementation des services d'assurance canadiens ont proposé une nouvelle norme nationale et harmonisée régissant les compétences de base requises de la part des agents d'assurance-vie. Au cours de l'année à venir, la CSFO prévoit demander au gouvernement ontarien d'approuver les modifications réglementaires nécessaires à certains aspects du nouveau modèle de compétence et à un examen amélioré menant à l'obtention du permis.
- Comme autre mesure d'harmonisation, le CCRRA propose de mettre au point un ensemble souple et accepté à l'échelle nationale de *catégories d'assurance* comptant un nombre moindre de catégories, ainsi qu'un processus d'autorisation simplifié pour l'ajout ou l'élimination de catégories. Les propositions ont été soumises à l'industrie aux fins de consultation en novembre 2000 et la CSFO appuiera la mise en œuvre de cette initiative au cours de la prochaine année.
- Le CCRRA projette également de mettre au point un nouvel ensemble *d'exigences minimales de capitalisation* pour les sociétés d'assurance multirisques. Le CCRRA devrait mettre la dernière main aux propositions de rapport pour que celles-ci soient adoptées à la fin de l'année 2001 à l'échelle du pays.
- Outre sa contribution aux initiatives de réglementation nationales, la CSFO continuera de jouer un rôle actif auprès de *l'Association internationale des contrôleurs d'assurance*, un organisme réunissant quelque 100 organismes de réglementation d'assurance du monde entier.

Initiatives de l'ACOCRR

- Pour trouver des solutions durables à la réglementation des régimes de retraite multiterritoriaux, l'ACOCRR a élaboré *des principes pour un modèle de loi sur les régimes de retraite* et mènera des entretiens à grande échelle au cours de l'année qui vient. À l'issue de ces entretiens, l'ACOCRR soumettra ces principes à l'examen des divers gouvernements au pays. Pour une solution à court terme au problème des régimes multiterritoriaux, l'ACOCRR envisage de mettre au point, d'ici le 31 décembre 2001, une entente réciproque remaniée et de la

soumettre à l'examen des diverses compétences canadiennes. La CSFO joue un rôle clé dans le cadre de ces deux initiatives.

- Avec la participation de l'industrie, on a mis au point des lignes directrices communes pour *la gestion des régimes de retraite* ainsi qu'un outil de mise en œuvre. Ceux-ci ont été soumis à l'examen de divers intervenants du secteur des régimes de retraite en mai 2001. La CSFO travaillera de concert avec l'ACOCRR pour mettre au point ces lignes directrices au cours de l'année à venir en menant une consultation à grande échelle auprès des intervenants.
- L'ACOCRR a mis sur pied *un comité des politiques de placement*, chargé de résoudre les problèmes de placement au nom des compétences couvertes par l'ACOCRR qui ont adopté les règlements fédéraux en la matière. L'Ontario est l'une de ces compétences et la CSFO joue un rôle actif au sein du comité, qui prévoit élaborer des solutions aux problèmes de placement, de concert avec l'industrie des régimes de retraite en vue de soumettre ses recommandations à l'ACOCRR.

PROMOUVOIR LA CONFORMITÉ ET APPLIQUER RIGOREUSEMENT LES MÉCANISMES PERTINENTS

La CSFO veille à ce que les secteurs réglementés exercent leurs activités dans le respect des lois pertinentes. Un niveau élevé de conformité protège les consommateurs et les prestataires de régimes de retraite, veille à des règles du jeu équitables à l'échelle de l'industrie et diminue le besoin d'intervention réglementaire. Pour encourager la conformité, la CSFO propose de prendre les mesures suivantes au cours de l'exercice :

- » poursuivre l'adoption d'une démarche axée sur le risque qui concentre les ressources sur les régimes de retraite exigeant une surveillance plus étroite;
- » promouvoir activement la conformité des régimes de retraite;
- » mettre davantage l'accent sur la surveillance des pratiques des assureurs.

Surveillance des régimes de retraite axée sur le risque

- La Direction des régimes de retraite de la CSFO poursuivra son remaniement pour ouvrir la voie à *une surveillance des régimes de retraite axée sur le risque*, grâce à une meilleure utilisation de la technologie. Le triage informatique permettra de détecter rapidement les problèmes éventuels et protégera ainsi mieux les prestataires.
- Des mesures préliminaires entreprises au cours du dernier exercice ont permis de remanier le relevé annuel, le sommaire actuariel et les demandes d'agrément et de modification des régimes pour permettre la saisie des renseignements essentiels dans une base de données centrale pour les besoins du traitement électronique. En 2001-2002, la CSFO modernisera *les systèmes informatiques des régimes de retraite* et les intégrera dans une plate-forme unique. De nouvelles procédures commerciales amélioreront la surveillance de la conformité et permettront aux utilisateurs autorisés d'accéder aux renseignements sur les régimes de retraite et les transactions par le biais du site Web de la CSFO.
- Tous les rapports d'évaluation déposés après le 1^{er} juillet 2000 doivent être accompagnés d'un *sommaire actuariel*. Le triage informatique permet d'identifier les régimes à risque élevé et exigeant une surveillance étroite, à partir des renseignements figurant sur le sommaire. La CSFO effectuera les derniers essais et mettra en œuvre le nouveau système de triage au cours du prochain exercice.

Conformité des régimes de retraite

- L'an dernier, la CSFO a renforcé ses *activités de conformité* dans le domaine des régimes de retraite. Celles-ci ont mené à

plusieurs poursuites réussies pour non-conformité aux exigences de dépôt. La CSFO continuera d'intervenir rapidement à l'endroit des régimes non conformes.

- La CSFO a aussi mis au point *un processus de vérification des régimes de retraite* et mené ses premières vérifications. Le processus de vérification continuera de faire partie du cadre de réglementation et visera chaque année un groupe sélectionné de régimes de retraite.
- *Les politiques de la CSFO en matière de régimes de retraite* guident l'application et l'interprétation des lois à cet égard. Plus de 300 politiques ont déjà été affichées au site Web de la CSFO, et quelque 250 d'entre elles ont été remaniées au cours des dernières années. La CSFO entend réexaminer la moitié des politiques restantes au cours de 2001-2002 et le reste, durant l'exercice suivant. Les politiques mises à jour favorisent la conformité en aidant l'industrie à mieux comprendre ses obligations.

Mettre l'accent sur la surveillance des pratiques des assureurs

- L'an dernier, la CSFO a présenté, en collaboration avec l'industrie, *un programme d'examen des pratiques des sociétés d'assurance de personnes*. La CCRRA a avalisé le programme et en a fait une initiative nationale pour accroître la confiance des consommateurs à l'égard des pratiques commerciales de l'industrie. Il s'agit d'un processus d'examen en deux étapes : les assureurs remplissent un questionnaire d'autoévaluation, puis chaque organisme de réglementation mène une vérification sur place. Durant la première année, on a mesuré la conformité aux exigences réglementaires et aux lignes directrices de l'industrie en matière de traitement des plaintes, de gestion des sinistres, de sélection et de surveillance des agents, et de déclaration à leur égard. Durant l'année à venir, on entreprendra le deuxième cycle de vérifications et la CSFO s'efforcera, avec l'industrie et les autres organismes de réglementation, d'examiner d'autres domaines d'activités des sociétés d'assurance.
- La CSFO met au point une méthode similaire pour simplifier *les vérifications relatives aux activités de traitement des indemnisations des victimes d'accidents d'automobile*. Éventuellement, les examens des pratiques de l'industrie pourront être élargis à d'autres domaines d'assurance multirisques. La CSFO mènera à bien ces initiatives avec l'aide de l'industrie.

FOURNIR UN SERVICE À LA CLIENTÈLE DE GRANDE QUALITÉ

La CSFO est déterminée à offrir aux consommateurs, aux entreprises et autres intervenants une norme élevée *de service à la clientèle*. Cet engagement souscrit à la détermination du gouvernement ontarien de mettre l'accent sur la clientèle. Face à l'évolution des attentes, la CSFO :

- » accélérera l'adoption du commerce électronique et la prestation de services électroniques pour faciliter l'échange d'information et réduire les délais de transaction et la paperasserie;
- » perfectionnera la mesure du rendement et les programmes d'amélioration de la qualité des services;
- » améliorera le service offert aux intervenants du secteur des régimes de retraite;
- » maintiendra l'engagement de qualité et d'efficacité du Tribunal des services financiers;
- » améliorera l'accès des consommateurs aux recours;
- » fera la promotion de l'information et de la sensibilisation des consommateurs.

Améliorer le commerce électronique

Au cours de l'exercice à venir, la CSFO mettra au point un plan de prestation des services électroniques, qui englobe les initiatives suivantes :

- En mai 2001, la CSFO a mis en œuvre la phase initiale *d'un système d'inscription des agents d'assurance axé sur Internet*, le premier du genre au Canada. Les agents pourront renouveler leur permis, mettre à jour leurs renseignements personnels, modifier le statut de leur permis et verser les droits qui s'appliquent en ligne, 24 heures sur 24, sept jours sur sept.
- *Le répertoire des dossiers* de la CSFO, accessible sur Internet et protégé par mot de passe, permet aux sociétés d'assurance-automobile d'obtenir des renseignements à jour sur l'état de leurs dossiers actifs de médiation, d'arbitrage et d'appel. L'accès aux renseignements les plus récents devrait favoriser un règlement plus rapide des affaires. De plus, la quatrième édition du *Code des pratiques pour le règlement des différends*, formulaires compris, a été affichée au site Web de la CSFO.
- Dans l'objectif *d'éliminer les obstacles au commerce électronique*, la CSFO a entrepris un examen approfondi des lois et règlements qu'elle administre. Lors du prochain exercice, cet examen portera sur l'analyse juridique de plans précis de commerce électronique, particulièrement à l'égard des questions de confidentialité et de sécurité.
- En collaboration avec d'autres organismes de réglementation, la CSFO cherche des moyens d'encourager l'essor du commerce électronique et de mener des activités réglementaires par voie électronique.

En 2000-2001, la CSFO a appuyé la création de *sites Web pour la CCRRA et l'ACOCRR*.

En tant que membre du comité de travail sur le commerce électronique de l'ACOCRR, la CSFO a poursuivi l'élaboration de lignes directrices régissant la *communication électronique entre les participants des régimes de retraite et leurs administrateurs*. Des consultations sur ces lignes directrices ont eu lieu en mai 2001 avec divers intervenants de l'industrie des régimes de retraite. Toute en tenant compte des commentaires reçus, la version finale de ces lignes directrices sera publiée plus tard cette année.

- En 2001-2002, la CSFO appuiera également *les initiatives du CCRRA en matière de commerce électronique* qui verront l'élaboration de lignes directrices s'inspirant des principes internationaux; elle évaluera l'utilisation actuelle et future du commerce électronique par les assureurs, elle identifiera les obstacles réglementaires aux affaires en ligne, et elle proposera des mesures qui amélioreront la protection des consommateurs dans un milieu électronique.

Mesure du rendement et qualité des services

- Consciente de son obligation de rendre des comptes à l'industrie, la CSFO a mis au point *un système amélioré de mesure du rendement* en 2000-2001. Ce nouveau système sera lancé au cours de la prochaine année et les résultats seront communiqués régulièrement aux intervenants.
- Dans le cadre du prochain exercice, la CSFO poursuivra son *programme d'amélioration de la qualité des services*, qui souscrit à l'initiative en cours à l'échelle du gouvernement, et qui renforcera sa réputation d'organisme axé sur la clientèle et les résultats. Elle adoptera des normes et des pratiques exemplaires dans des domaines clés.

Amélioration du service aux intervenants des régimes de retraite

- La CSFO a réussi à mettre en œuvre les dispositions de la *Loi de 1999 modifiant des lois concernant les régimes de retraite*, qui permet l'*accès aux comptes de retraite avec immobilisation des*

fonds en cas de difficultés financières. Les procédures de traitement de ces demandes seront mises au point, si le besoin se présente, au cours des mois à venir.

- Au cours du dernier exercice, la CSFO a formulé **un calendrier de traitement des transactions prioritaires pour les régimes de retraite** et confirmé ces normes de service lors d'entretiens avec les intervenants. En 2001-2002, la CSFO mettra en œuvre un système automatisé de suivi en vue de respecter ce calendrier.
- La CSFO s'efforce, en collaboration avec l'Association canadienne des compagnies d'assurances de personnes inc., de mettre au point **un rapport normalisé de liquidation des régimes à cotisations déterminées**. Au cours du prochain exercice, elle prévoit l'adoption d'un processus simplifié d'examen des rapports de liquidation fondé sur le format normalisé.
- Tout comme les décisions anticipées en matière d'impôt, **les décisions anticipées de la CSFO concernant les questions complexes de régimes de retraite** pourraient aider ces derniers à répondre aux exigences réglementaires. L'an dernier, la CSFO a soumis un projet de politique à l'examen de l'industrie. À la lumière des importants commentaires exprimés par les intervenants de l'industrie des régimes de retraite, une nouvelle version du projet de politique a été publiée en mai 2001 et soumise à l'examen de l'industrie. À la suite de ces consultations, la CSFO mettra en œuvre cette initiative déterminante en matière de service à la clientèle.

Tribunal des services financiers

- L'an dernier, le Tribunal a présenté **des procédures simplifiées** pour répondre aux demandes d'audience relatives aux décisions rendues par la surintendante sur l'accès aux comptes de retraite avec immobilisation des fonds en cas de difficultés financières.
- Au cours du prochain exercice, le Comité consultatif juridique du Tribunal poursuivra son examen **des règles de pratique et de procédure**.
- Le Tribunal continuera également l'élaboration **de normes et de mesures** d'amélioration de la qualité et de l'efficacité du processus d'audience et de règlement des cas.

Favoriser l'accès des consommateurs aux recours

- La CSFO s'efforce d'offrir et d'élargir les méthodes de résolution des plaintes des consommateurs, dont font l'objet les secteurs réglementés, de manière rapide, équitable et économique. Elle étudie des possibilités d'étendre à d'autres types de conflits **son service de règlement des différends** en matière d'indemnisation des victimes de blessures subies lors d'un accident de la route.
- La CSFO mettra aussi à l'essai la possibilité de dépasser le mandat actuel de règlement des différends en fournissant non seulement au secteur global des assurances, mais également à d'autres services financiers, **une méthode de rechange rapide et économique pour la résolution de conflits**. Elle a l'intention de mener des projets pilotes à cet effet au cours de l'exercice à venir, en consultation avec des parties intéressées.
- Durant le prochain exercice, **le Bureau de l'ombudsman** entreprendra les premières étapes d'élargissement de ses services au-delà du domaine des assurances. Le bureau suivra et rendra compte de toutes les plaintes écrites portant sur les secteurs réglementés par la CSFO, et lancera un projet pilote pour établir le type de plaintes relatives aux régimes de retraite qu'il serait en mesure de traiter. De plus, le bureau s'efforcera, en collaboration avec des intervenants, d'énoncer des normes communes pour le traitement des plaintes, en fonction de pratiques exemplaires.

Information et sensibilisation des consommateurs

- **Le centre d'appels** de la CSFO, chargé d'offrir aux consommateurs et autres intervenants un guichet téléphonique unique et

des réponses plus rapides et plus efficaces aux demandes de renseignements, ouvrira ses portes en 2001. Il peaufinera ses opérations au cours des premiers mois; le suivi des données sur les plaintes permettra de relever les nouvelles tendances et les besoins en matière de renseignements.

- Pour aider les consommateurs à mieux comprendre les produits qu'ils achètent et les services qu'ils utilisent, la CSFO a publié, en mai 2000, sept **publications à l'intention des consommateurs**, nouvelles ou remaniées. En collaboration avec Actualité Canada, elle a publié **des articles dans les journaux locaux et disséminé de l'information par les services de radiotélédiffusion**. Par le biais d'Actualité Canada, des articles et des annonces-éclairés sur la CSFO continueront d'offrir en 2001-2002 aux consommateurs les renseignements dont ils ont besoin pour prendre des décisions éclairées sur les produits et services financiers.
- La CSFO apportera également son soutien à la coordination de ces **initiatives axées sur l'éducation et l'information des consommateurs**, en collaboration avec d'autres organismes de réglementation des services financiers.

CONCLUSION

Sont énoncées dans le présent document les priorités stratégiques de la CSFO pour l'exercice à venir, ainsi que les raisons appuyant leur adoption et les étapes de mise en œuvre. Nous nous réjouissons à la perspective de collaborer avec l'industrie, les consommateurs et les autres intervenants du domaine à la poursuite de nos objectifs, et de favoriser ainsi un marché équitable, efficient et efficace des services financiers, marqué par une concurrence saine et une bonne protection des consommateurs.

20. Je joins les renseignements financiers suivants à mon sujet :
